Truis is an IT company that prides itself on making technology more human. With over 40 years of experience, Truis has a proven track record of creating innovative IT solutions that cater to the unique needs and ambitions of its clients. As technology continues to evolve and change, so does Truis. The company is always looking for ways to improve its services and provide new opportunities for its clients. Founded four decades ago, Truis has grown and expanded its capabilities to become a multi-vendor software and hardware solutions partner. The company's expertise spans a range of IT services, including cloud computing, cybersecurity, data management, and digital transformation. Truis is dedicated to helping clients

across Australia and neighbouring countries to prosper and grow by leveraging technology to gain a competitive edge in their respective industries. What sets Truis apart is its commitment to putting people at the heart of its IT solutions. The company understands that technology is only a means to an end, and that ultimately, it's the people who make the difference. That's why Truis takes the time to understand its clients' unique challenges and goals, and works closely with them to design custom solutions that meet their needs. Truis is staffed by a team of highly-skilled IT professionals who are passionate about technology and committed to delivering exceptional service. The company invests heavily in training and development to ensure its team members stay up-to-date with the latest industry trends and technologies.
